

Get enterprise shipping performance with popular carrier programs

 EPICOR
Prophet 21

Programs like FedEx Ship Manager and UPS Worldship have always been the sure way to access 100% of available carrier services. At the same time, Prophet 21 remains the best solution to manage your business. Until now, accessing carriers often meant implementing a costly TMS. ShipLink provides a new, more powerful solution that offers the simplicity and convenience of carrier software with unprecedented control and efficiency – all tightly integrated to your Prophet 21 system in under a day!

CONNECT WITH CARRIERS

ShipLink populates freight and parcel carrier programs with a single click.

- Works from the Prophet 21 Shipment screen or simple solution interface.
- Captures all order and pick ticket data, including line item detail required for international shipments.
- Handles customer and contact data, including multiple email addresses required for shipment status notifications.
- Provides tracking numbers and allocated freight charges after each shipment.

OPTIMIZE DISTRIBUTION

PC-based ShipLink includes powerful configuration tools and management utilities to streamline the entire shipping process.

- Replaces manual processes with advanced order and pick ticket consolidation.
- Automates carrier account and profile selection based on order data.
- Provides flexible rules engine to query user-defined fields, select services, trigger pop-up alerts, and apply customized freight charges to individual orders and pick tickets.
- Dynamically processes international goods data to generate the most accurate export documents
- Captures execution logic, triggers invoice generation options, and powers tracking within Prophet 21.

HOW SHIPLINK WORKS

- 1 Scan** ShipLink instantly captures 100% of pick ticket, order, customer and inventory data
- 2 Process** ShipLink applies custom business rules to optimize shipment
- 3 Consolidate** ShipLink lets you add orders and verifies ship-ability
- 4 Send** ShipLink automatically populates all fields in the selected carrier program
- 5 Weigh** Carrier programs capture weight and optional data
- 6 Ship** ShipLink generates labels and international documents
- 7 Update** ShipLink sends tracking, custom freight charge, order status, and consolidated shipment memo data
- 8 Close** ShipLink completes end-of-day process across multiple workstations, and generates custom reports

WHAT SHIPLINK INCLUDES

ShipLink is a Windows PC client application that can run in multiple locations and workstations without any additional server.

- **Work Station**
This window appears alongside carrier programs for users to scan or enter one or more pick tickets, add cartons and complete shipments.
- **Administration System**
This menu-driven, point-and-click utility allows for the quick configuration of Prophet 21 integration components, carrier accounts and business rules.
- **Cloud Management**
This utility maintains workstations, manages site back-ups, and provisions carriers.

START SHIPPING TODAY

ShipLink deploys in hours and can 'go-live' within one day. With its simple interface and use of existing carrier programs, the solution requires little training.

Join the hundreds of users around the world that count on ShipLink to power shipping for businesses large and small.

Get started by calling 657.222.0500 for additional information and to schedule a demonstration.
